

Guidelines for Poster Submission

Geomundus 2020

Content

The submitted works should not have been published before and should not be under process of publication in any other conference or publication medium. All co-authors (if any) should have approved the submission. The submitted work must not be copied or plagiarized in whole or in part from other works and must represent the authors' own contributions. Appropriate citation or quote should be used for the work and/or words of others.

The submitted posters must respect the following specifications:

- Full title of the abstract corresponding to the poster
- Names of authors and involved agencies, companies or (educational) institutions
- Max 1000 words
- Brief text, well organized, present only brief results that support your conclusions
- Show the significance of your research
- In general, include:
 - Hypothesis
 - Methods
 - Results
 - Conclusions
 - Sources / literature used
 - Acknowledgements

Design

- Dimensions: A0 size (approx. 1.20m x 0.90m or 4' x 3')
- Arrangement: Clear, simple and uncluttered
- Lettering: Title 8cm in height
- Authors' names and affiliations somewhat smaller

- Everything should be readable from a distance of 1.5m – 2m (5' – 7')
- Use simple and clear font type. When using colors, make sure to have high contrast

Once you are notified of your poster's acceptance, it is your responsibility to print* it in A-0 size and bring it for display at the conference.

***Disclaimer: In case of a remote conference due to the ongoing Covid-19 pandemic, the digital posters will be displayed during the “Poster Session” of the conference as well as hosted online in a "Poster gallery section" of the GeoMundus website, hence no need to print and only digital submission will be required.**
